
University of Gothenburg and Chalmers University of Technology

Winter Geometry Workshop

9–11 December 2026

Department of Mathematical Sciences, Chalmers Tvärgata 3, Gothenburg

The talks will cover complex geometry, including pluripotential theory, canonical metrics and K-stability, and connections with mathematical physics.

Speakers

Bo Berndtsson

Sébastien Boucksom

Yifan Chen

Ruadhaí Dervan

Siarhei Finski

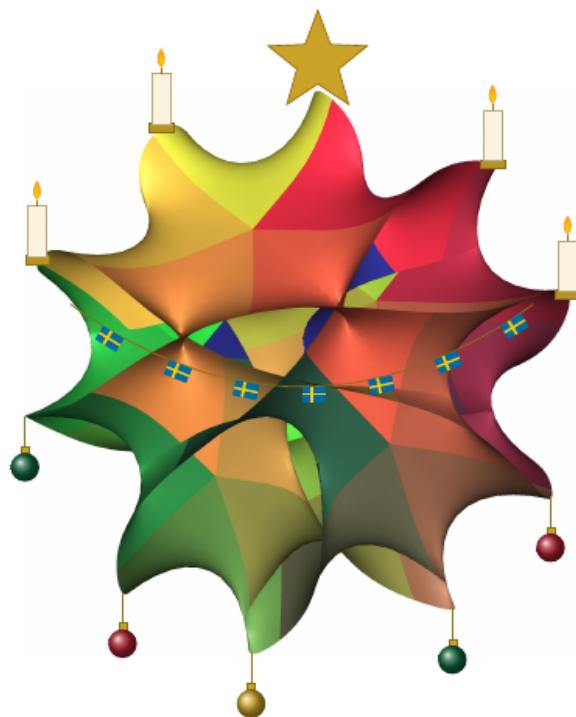

Henri Guenancia

Hans-Joachim Hein

Semyon Klevtsov

Chi Li

Zakarias Sjöström Dyrefelt

Registration is free and open until 9 November 2026 at pietropic.github.io/wing-workshop. Organized by Pietro Mesquita Piccione. Questions to piccione@chalmers.se.

Supported by Wilhelm och Martina Lundgrens Vetenskapsfond.
